Billing

The Swiss Supervisory Authority for health insurance, SanteSuisse / SASIS, dictates that, based on the Swiss Health Law KVG, billing must be as follows:

Conventional school medicine, specialists --> Basic insurance

Treatments of chronic disease and health complaints --> Basic insurance and Private
(Consultation via health insurance until time limit reached according to Tarmed. Rest on private basis. Basic laboratory mostly via health insurance, special laboratory and treatments privately after cost clarification.)

Check up, energy enhancement, blood tuning, prevention, treatments by naturopaths, all holistic approaches, aesthetics, kryotherapy, environmental and dental medicine, infusion medicine, nutritional supplements, conventional medical diagnostics and therapy without mainstream accepted indication, iron infusions without health insurance cost approval, international patients --> solely private service

Further information

In the event of no-shows and cancellations within 24 hours before the appointment, you can be charged for the reserved time as a non-compulsory service based on the current private tariff.

E-Mails are generally charged as telephone calls. All medicinal products and natural products may no longer be taken back by law. Orphan drugs and medicines approved outside Switzerland may also be given at the patient's own risk.

Patient declaration

- I have given my information truthfully and confirm my consent to the modalities mentioned above.
- I personally bear the reimbursement risk on the part of the health insurance companies.
- I allow external institutions to invoice the PSC and carry out debt collection.
- I agree that insurance companies settle directly with the PSC.
- Private bills are sent directly to the patient

I would like a purely private treatment without reimbursement of the insurance.

I hereby confirm that I have understood this patient declaration and legally accepted these regulations,

Thalwil,
